

product technical sheet

collection	SENIOR 46
code	441-F
description	Wc seat with cover, soft close, for art. 407.
certifications	TUV system certification UNI EN ISO 9001.
features	<p>Wc seat with cover, soft close, for art. 407.</p> <p>Wood chipboard inside, covered with casting polyester thickness 2 mm. The polyester covering compared to superficial painting offers a better resistance to wear and this means a longer durability of the product. Hinges made of chrome plated brass.</p> <p>Expansion bolts.</p> <p>Nb: each seat is designed for a specific model of wc, an installation on different models of wc might not fit perfectly, causing an early break of the hinges. We suggest, for this reason, to use the wc seat that corresponds to each single model of wc.</p>
size	460 x 380 x 50 mm
installation	<p>Fix through the specific screws supplied with the product, taking care to tighten the fasteners very well in order to avoid slacks.</p> <p>The front bumpers have to lean against the edge of the wc, the rear bumpers have to remain raised for 3 - 4 mm about.</p>
finishes	White color.
maintenance	<p>Check periodically the correct fixation of the seat; avoid slacks during the fixation and incorrect movements in order to avoid to damage the hinges.</p> <p>Clean with water and soap or other appropriate products, avoid aggressive or abrasive products.</p> <p>Dry with a soft cloth.</p>
materials	<p>Seat - Wood chipboard , casting polyester</p> <p>Hinges - Chrome plated brass</p> <p>Bumpers - linear polyethylene</p>
